INDEPENDENT STATE OF PAPUA NEW GUINEA.

CHAPTER NO.231.

Poisons and Dangerous Substances.

GENERAL ANNOTATION

ADMINISTRATION.

The administration of this Chapter was vested in the Minister for Health at the date of its preparation for inclusion.

The present administration may be ascertained by reference to the most recent Determination of Titles and Responsibilities of Ministers made under Section 148(1) of the Constitution.

References in or in relation to this Chapter to—

"the Departmental Head"—should be read as references to the Secretary for Health;

"the Department"—should be read as references to the Department of Health.

CHAPTER No. 231.

Poisons and Dangerous Substances Act.

ARRANGEMENT OF SECTIONS.

PART I.—PRELIMINARY.

1. Interpretation—
   "automatic machine"
   "the British Pharmacopoeia"
   "container"
   "dangerous substance"
   "methylated spirit"
   "package"
   "poison"
   "poisons licence"
   "Poisons Register"
   "rectified spirit"
   "the regulations"
   "sell"
   "this Act".

2. Application.

3. Calculations of percentages.

4. Variation of schedules.

PART II.—LICENCES.

5. Poisons licence.

6. Revocation of poisons licences.

PART III.—SALE OF POISONS AND DANGEROUS SUBSTANCES.

7. Application of Part III. to wholesalers.

13. Hawking poisons and dangerous substances.

14. Sale of poisons to persons under 18 years, etc.

15. Automatic vending machines.

16. Poisons Registers.

17. Entries in Poisons Registers.

18. Person unable to sign his name.

19. Sale on order by letter, etc.

20. Sale to medical practitioners, etc.

21. Application of Sections 14, 17, 18 and 19.

22. Records to be kept by medical practitioners, etc.

Prepared for inclusion as at 1/1/1982.
INDEPENDENT STATE OF PAPUA NEW GUINEA.

CHAPTER No. 231.

Poisons and Dangerous Substances Act.

Being an Act relating to the control, sale and use of poisons, drugs and dangerous substances and articles used in medicine and surgery, and for related purposes.

PART I.—PRELIMINARY.

1.—Interpretation.

(1) In this Act, unless the contrary intention appears—

“automatic machine” means a machine or mechanical device that is used, or is capable of being used, for the purpose of selling goods without the personal manipulation or attention, at the time of the sale, of the seller or of an employee or agent of the seller;

“the British Pharmacopoeia” means the British Pharmacopoeia as published in the United Kingdom under the direction of the General Medical Council of the United Kingdom, in the edition for the time being in force;

“container”, in relation to a substance, material, body or thing referred to in this Act, means a vessel, bottle, tube, tin, box, case, wrapper, cover or other similar receptacle or envelope that immediately contains the substance, material, body or thing;

“dangerous substance” means a thing specified in Schedule 4 or 5;

“methylated spirit” includes—

(a) spirit that has been methylated or denatured; and

(b) methyl alcohol and wood spirit; and

(c) any other spirit to which a methylated substance has been added; and

(d) any potable liquid with which methylated spirit is mixed;

“package” includes a case, bottle, jar, vessel, bag, box or other receptacle, and any other means by which goods are cased, covered, enclosed, contained or packed;

“poison” means a thing specified in Schedule 1, 2 or 3;

“poisons licence” means a licence under Section 5;

“Poisons Register” means register in accordance with Section 16;

“rectified spirit” means rectified spirit as defined in the British Pharmacopoeia;

“the regulations” means any regulation made under this Act;

“sell” includes—

(a) sell, whether by wholesale or retail, and barter or exchange; and

(b) supply; and

(c) deal in; and

(d) agree to sell; and

(e) offer or expose for sale; and  

5
Ch. No. 231  Poisons and Dangerous Substances

(f) keep or have in possession for sale; and
(g) send, forward, deliver or receive for sale or on sale; and
(h) authorize, direct, cause, permit or attempt any act or thing referred to in Paragraph (d), (e), (f) or (g);

"this Act" includes the regulations.

(2) Without restricting the meaning of the word "possession", a substance shall, for the purposes of this Act, be deemed to be in the possession of a person so long as it is on land or premises occupied by him, or is used, enjoyed or controlled by him in any place, unless it is shown that he had no knowledge of that fact.

2. Application.

This Act does not apply to the State or to an officer while acting in his official capacity.

3. Calculations of percentages.

For the purposes of this Act, in the case of liquid preparations percentages shall be calculated on the basis that a preparation containing 1% of any substance means a preparation in which—

(a) if a solid—1 g of the substance; and
(b) if a liquid—1 ml of the substance,

is contained in every 100 ml of the preparation, and so in proportion for any greater or less percentage.

4. Variation of schedules.

The Minister may, by notice in the National Gazette, delete any item from, vary any item in, or add an item to, a schedule, and from the date of the publication of the notice that schedule shall be read subject to the deletion, variation or addition made by the notice.

PART II.—LICENCES.

5. Poisons licence.

(1) The Minister may grant a poisons licence to a person to sell a poison specified in Schedule 3 for one year from the date of the licence.

(2) The fee for a licence is as prescribed.

(3) On payment of the prescribed fee, the holder of a poisons licence may have his licence renewed, from time to time, for a period of one year.

(4) A poisons licence shall specify the place or places at which the holder may sell poisons, and does not authorize him to sell poisons at any other place.

6. Revocation of poisons licences.

(1) A poisons licence may be revoked by the Minister at any time.

(2) Where a person is convicted of an offence against this Part in relation to methylated spirit as defined in the British Pharmacopoeia, or rectified spirit, the court that convicts him may, in addition to or in substitution for any other penalty—

(a) cancel, vary or restrict a licence granted to him under this Act; and
Poisons and Dangerous Substances

Ch. No. 231

(b) cancel, vary or restrict any other licence or permit to purchase, sell or deal in any goods or commodities granted to him under any other law, if the court, having regard to the nature of the offence, thinks it desirable to do so in the public interest.

PART III.—SALE OF POISONS AND DANGEROUS SUBSTANCES.

7. Application of Part III. to wholesalers.

This Part does not apply to the sale of poisons by wholesale dealers in the ordinary course of wholesale dealing, where—

(a) a written order signed by the purchaser is given for the supply of the poison; and

(b) the vendor at the time of the sale and before delivery enters in a book to be kept for the purpose the nature and quantity of the poison and the name and place of residence of the purchaser.

A person, other than a medical practitioner, a pharmacist or a person specially licensed by the Minister to do so, must not sell a thing specified in Schedule 1 or 2.

Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12 months or both.

(1) Subject to Subsection (2), a person must not sell a thing specified in Schedule 1 except on the prescription or on the written order of a medical practitioner, a dentist or a veterinary surgeon.

(2) Notwithstanding Subsection (1), the Departmental Head may authorize the sale or distribution of things specified in Schedule 1 to persons required to be in possession of such things under any law.

(3) Unless the prescription or order referred to in Subsection (1) expressly states that a thing specified in Schedule 1 is to be supplied more than once, a person—

(a) must not sell any such thing more than once on the same prescription or order; and

(b) must, after selling the thing, write the word "Cancelled" and his name and the date on the prescription or order.

(4) If the prescription or order states that the thing specified in Schedule 1 is to be supplied for a maximum number of times—

(a) a person selling that thing must, on the occasion of each sale, write his name and the date on the prescription or order; and

(b) the person who sells the thing on the last occasion, as determined by the maximum number of times of supply so stated and evidenced by the writing on the prescription or order, must, in addition to writing the particulars required by Paragraph (a), write the word "Cancelled".

(5) A person must not supply a thing specified in Schedule 1 on a prescription or order on which the word "Cancelled" is written.

Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12 months, or both.

A person other than a medical practitioner, a pharmacist or the holder of a poisons licence must not sell a thing specified in Schedule 3.

Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12 months, or both.

Subject to this Act and to any other law, any person may sell a thing specified in Schedule 4.

(1) Subject to this Act and to any other law, any person may sell to a purchaser who is known to the vendor to be engaged in mining, agriculture, horticulture or the keeping or breeding of animals a thing specified in Schedule 5 that is packed exclusively for the purpose of the industry in which the purchaser is engaged.

(2) Where a thing referred to in Subsection (1) is labelled and packed as required by this Act and is sold in the quantity set out in Schedule 5, it shall, for the purposes of this Act, be deemed to be specified in that Schedule and not in any other Schedule notwithstanding that it, or some of its component parts, is in fact specified in any other Schedule.

13. Hawking poisons and dangerous substances.

A person who—

(a) sells or offers for sale in a street or public place, or from house to house; or
(b) hawks or peddles, or distributes or causes to be distributed as samples, in a street or public place, or from house to house,

a poison or dangerous substance is guilty of an offence.

Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12 months, or both.

14. Sale of poisons to persons under 18 years, etc.

(1) Subject to Section 21, a person who sells a poison to a person who is under 18 years of age is guilty of an offence.

(2) Subject to Section 21, a person who sells a poison to a person who is unknown to the vendor is guilty of an offence unless the sale is made in the presence of a witness who is known to the vendor and who knows the purchaser.

(3) Before the delivery to the purchaser, the witness in whose presence a sale to which Subsection (2) applies is made must sign the entry adding his name and place of residence as required by this Part.

Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12 months, or both.

15. Automatic vending machines.

A person who—

(a) installs an automatic machine for the sale of a poison or dangerous substance; or
(b) sells a poison or dangerous substance by means of an automatic machine,
is guilty of an offence.

Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12 months, or both.

16. Poisons Registers.

A pharmacist or the holder of a poisons licence must keep a Poisons Register in which
he must enter from time to time all information that he is required by this Part to enter.

Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12 months, or both.

17. Entries in Poisons Registers.

Subject to Section 21, except where a sale is made under Section 19, a person, other
than a medical practitioner, who sells a thing specified in Division 1\(^1\) of Schedule 2, or in
Schedule 3, must, before delivery of the thing to the purchaser—

(a) enter in the Poisons Register—

(i) the name, place of residence and occupation of the purchaser; and
(ii) the date of purchase; and
(iii) the description and quantity of the thing purchased; and
(iv) the purpose for which the thing is required; and

(b) sign, and ensure that the purchaser and witness (if any) required by this Act
to be present, sign the entry in the Poisons Register.

Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12 months, or both.

18. Person unable to sign his name.

Subject to Section 21, a person who sells a thing specified in Division 1\(^1\) of Schedule
2, or in Schedule 3, to a person who is unable to sign his name is

Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12 months, or both.

19. Sale on order by letter, etc.

(1) Subject to this Act, a pharmacist or the holder of a poisons licence may sell a thing
specified in Division 1\(^1\) of Schedule 2, or in Schedule 3, on receipt of an order—

(a) by letter, where—

(i) the vendor is familiar with the signature of the purchaser; or
(ii) the signature has been witnessed by a District Officer, a commissioned
officer of the Police Force or a person known to the vendor,
and the letter is preserved by the vendor for a period of two years; or

(b) by telegram or radiogram, where the purchaser is known to the vendor and
the telegram or radiogram is preserved by the vendor for a period of two years.

(2) In the case of a sale referred to in Subsection (1), unless the sale conforms with the
other provisions of this Act the vendor must make an entry in the Poisons Register
stating—

(a) the date of the letter, telegram or radiogram; and

\(^1\) Schedule 2 refers only to Division 2.

Prepared for inclusion as at 1/1/1982.
(b) by whom it was written or sent; and
(c) the nature and quantity of the thing ordered.

Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12 months, or both.

20. Sale to medical practitioners, etc.

(1) A medical practitioner, dentist or veterinary surgeon is not required to sign an entry in the Poisons Register in respect of a purchase by him if the vendor—
   (a) before or within 24 hours after the delivery of the poison receives a written order signed by the purchaser stating his name and address and the name and quantity of the poison to be purchased; and
   (b) is satisfied that the signature to the order is in fact the signature of the person purporting to sign it, and that the person is a medical practitioner, dentist or veterinary surgeon, as the case may be; and
   (c) enters in the Poisons Register, in the place assigned to the signature of purchasers, the words "Signed order" followed by the date on which the order is executed,

and if the vendor sends by registered post any poison that he sends by post.

(2) In a case to which Subsection (1) applies, where the signed order is not lodged with the vendor before the expiration of the period specified in Subsection (1)(a) the purchaser is guilty of an offence.

(3) Where this section applies to a purchaser of any poison, the vendor must preserve the signed order of the purchaser for a period of two years from the date on which the final entry in the Poisons Register is made.

Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12 months, or both.

21. Application of Sections 14, 17, 18 and 19.

(1) Sections 14, 17, 18 and 19 do not apply in respect of a poison that is—
   (a) compounded by a medical practitioner or a pharmacist according to the prescription of a medical practitioner; or
   (b) in the form of homoeopathic medicine otherwise than in the crude state, as a mother tincture or of a strength greater than the third decimal potency; or
   (c) in the form of a medicine dispensed by a veterinary surgeon or pharmacist according to the prescription for animals under treatment of a veterinary surgeon; or
   (d) in the form of a mixture compounded by a pharmacist in the legitimate pursuit of his business.

(2) Notwithstanding Subsection (1), a person who sells or delivers a medicine for external application containing poison otherwise than in the prescribed type of container labelled in the prescribed manner is guilty of an offence.

Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12 months, or both.
Poisons and Dangerous Substances

22. Records to be kept by medical practitioners, etc.

(1) A medical practitioner who prescribes or dispenses, and a pharmacist who dispenses, a medicine containing a thing specified in Schedule 1 must keep a record in a suitable book of the prescription so prescribed or dispensed by him, and the name and address of the person for or to whom it was prescribed or dispensed.

(2) The record referred to in Subsection (1) must—

(a) be readily accessible for inspection; and

(b) be preserved by the person prescribing or dispensing for a period of two years.

Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12 months, or both.

PART IV.—LABELLING AND PACKING POISONS AND DANGEROUS SUBSTANCES.

A person selling a poison or dangerous substance must—

(a) keep all the poisons or dangerous substances separate and distinct from food, drugs or goods of any kind that are suitable for the food of man or animal; and

(b) deliver it to the purchaser in a package or container securely sealed and fastened; and

(c) sell it only in bottles, tins, cans, jars, drums, casks or containers of sufficient strength to bear the ordinary risk of transit without leakage; and

(d) deliver it, if sold in bottles, tins, cans, jars, drums, casks or containers, to the purchaser in a container to which is securely affixed a label on which—

(i) the words “Poison—Not to be Taken” or “Poisonous—Not to be Taken” is printed; and

(ii) the word “Poison” or “Poisonous” form the first line of the label and appear in red letters of a size larger than any other letters on the label; and

(iii) the name of the poison or dangerous substance appears; and

(iv) the name and address of the vendor appears; and

(e) have securely attached to—

(i) packages of solid poisons or solid dangerous substances; and

(ii) packages or containers of poisons or dangerous substances intended to be used for—

(A) photography; or

(B) fly-poison papers; or

(C) the destruction of rats, mice, birds or vermin; or
Poisons and Dangerous Substances

(D) veterinary, pastoral, agricultural, horticultural or mining purposes,
a label containing the matters required by Paragraph (d), together with a
notice indicating—
(iii) the special purpose for which the poison or dangerous substance is
intended; and
(iv) that the poison or dangerous substance must not be used for any other
purpose; and

(f) not sell—
(i) arsenic or its preparations or paris green, or other coloured arsenical
paints and pigments; or
(ii) a poison or dangerous substance intended to be used exclusively for
the purpose of destroying rats, mice, birds or vermin,
in paper bags or collapsible tubes, or in cardboard containers other than
cardboard containers that are impervious to the poison and sufficiently stout
and sealed or fastened to prevent leakage arising from the ordinary risks of
handling, storing or transport; and

(g) deliver a medicine intended for internal use containing a poison or dangerous
substance to the purchaser in a package or container to which there is securely
affixed a label bearing the words—
"This preparation is labelled 'Poison' in conformity with the Poisons
and Dangerous Substances Act, but if taken in strict accordance with the
prescribed dose is not dangerous".

Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12
months, or both.

A person who sells a liquid dangerous substance specified in Schedule 6—
(a) in an area declared by the Minister, by notice in the National Gazette, for the
purpose of this section, otherwise than in a tin, plastic screw-top container or
triangular green or amber bottle; or
(b) in an area not declared under Paragraph (a), otherwise than—
(i) as prescribed in Paragraph (a); or
(ii) in a bottle other than a bottle the exterior of which is painted with a
paint other than a waterpaint; or
(c) in a bottle or other container that is—
(i) used for packing, storing or delivering food or drink, except as
permitted by Paragraph (b)(ii); or
(ii) closed with a stopper that is marked with the name of a food or drink;
or
(iii) closed with a stopper other than a cork or screw-on cap,
is guilty of an offence.

Penalty: A fine not exceeding K200.00.
25. Colouring of methylated spirits.
A person who sells methylated spirits that is not coloured blue with a non-toxic dye is guilty of an offence.
Penalty: A fine not exceeding K200.00.

(1) A poison, mercurochrome or tincture of iodine sold in a bottle must be delivered to the purchaser in a dark-blue, dark-green or dark-brown glass bottle of a round, square, diamond, triangular or other shape approved of by the Minister on which—
   (a) the word “Poison” or the words “Not to be taken” are blown; and
   (b) prominent points, stars, flutes or vertical ribs are blown in such a manner as to render the bottle distinguishable by touch from bottles or vessels ordinarily used as containers of food, drink or condiment, or of medicines for internal use.

(2) Subject to Subsection (3), a label must not be attached or affixed to the bottle in such a manner that the points, stars, flutes, ribs or prescribed words blown on the bottle are covered or obliterated.

(3) The label may cover the front panel of the bottle and extend around the adjacent sides if the matter blown on the back panel of the bottle and the prescribed words blown on the bottle are not covered or obliterated.

(4) A person who delivers in a bottle to a purchaser a substance referred to in Subsection (1) otherwise than in accordance with this section is guilty of an offence.
Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12 months, or both.

PART V.—MISCELLANEOUS.

27. Drinking of methylated spirit prohibited.
A person who drinks methylated spirit as defined in the British Pharmacopoeia, or rectified spirit, is guilty of an offence.
Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12 months, or both.

28. Methylated spirit not to be sold for drinking purposes.
A person who sells or disposes of methylated spirit as defined in the British Pharmacopoeia, or rectified spirit, to another person, who he has reasonable cause to believe intends—
   (a) to use the spirit for drinking purposes; or
   (b) to give or supply the spirit to any other person for drinking purposes,
is guilty of an offence.
Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12 months, or both.

29. Inspection.
For the purposes of this Act, an officer of the Department, or a commissioned officer of the Police Force, authorized in writing by the Minister, may—
   (a) enter any premises; and
(b) demand the production of, and search for and inspect, any books or
documents, stock of poisons or dangerous substances or thing that he suspects
may be a poison or dangerous substance; and
(c) take away samples of any such poison, dangerous substance or thing.

30. Offences in relation to the sale of poisons, etc.

A person who—

(a) purchases a poison or dangerous substance and gives false information to the
vendor in answer to inquiries in relation to matters concerning which the
vendor is entitled or required by this Act to inquire; or

(b) signs his name as a witness to the sale of a poison to a person unknown to
him; or

(c) offers for sale a poison or dangerous substance in respect of which the
provisions of this Act have not been observed; or

(d) refuses to produce books or documents or things when required to do so by
an officer authorized by or under Section 29; or

(e) impedes or obstructs an officer authorized by or under Section 29 in the
performance of his duty under this Act,
is guilty of an offence.

Penalty: A fine not exceeding K200.00 or imprisonment for a term not exceeding 12
months, or both.

31. Offences due to inadvertence.

A person convicted of an offence against this Act relating to—

(a) the keeping of books; or

(b) the issuing or dispensing of prescriptions issued by medical practitioners,
shall not be sentenced to imprisonment or to pay a fine of more than K200.00 if the court
dealing with the case is satisfied that the offence was due to inadvertence and was not
preparatory to, or committed in the course of, or in connexion with, the commission or
intended commission of any other offence.

32. Regulations.

The Head of State, acting on advice, may make regulations, not inconsistent with this
Act, prescribing all matters that by this Act are required or permitted to be prescribed, or
that are necessary or convenient to be prescribed for carrying out or giving effect to this
Act, and in particular prescribing matters providing for and in relation to—

(a) the forms to be used for the purposes of this Act; and

(b) the manufacture, storage and safe custody of poisons and dangerous sub-
stances; and

(c) the colouring of a poison or dangerous substance; and

(d) the shape, size, materials and labelling of the containers or packages in which
a poison or dangerous substance may be sold; and

(e) the printing on packages in which a poison or dangerous substance is packed
for sale of the name of an effective remedy to counteract its effect.
Poisons and Dangerous Substances

(f) the prohibition, either absolutely or except under prescribed conditions, of the supply, manufacture or distribution of a poison or dangerous substance; and

(g) the restriction or prohibition, except under prescribed conditions, of the use of any substance or thing that may be contaminated or affected by the use of a poison or dangerous substance; and

(b) the issue by medical practitioners of prescriptions containing poisons or dangerous substances and the dispensing of such prescriptions; and

(i) the control of the sale of methylated spirit and of rectified spirit; and

(j) the fees for any services or purposes under this Act, and in particular for the analysis or examination of drugs, disinfectants or preservatives; and

(k) prescribing penalties of fines not exceeding K200.00 or imprisonment for terms not exceeding 12 months, or both, for offences against the regulations.

SCHEDULES.

SCHEDULE 1.

Secs. 1, 8, 9, 22.

POISONS, GENERAL.

Acebutolol
Acetanilide and alkyl acetanilides
Acetazolamide
Acetoheptamide
Acetylcysteine
Acetyl Methyl Dimethyl Oximido Phenyl Hydrazine
Acetylpentylhydrazine
Aconite—Root of Aconitum Napellus and substances for internal use containing more than 0.02% of the alkaloids ofaconite, and liniments for external application containing more than 0.1% of the alkaloids ofaconite.

Adonis Vernalis
Adrenalin, natural or synthetic, its salts, and in substances containing more than 1%
Alclofenac
Aldosterone
Alllylisopropyiacetylurea
Aloxidone
Alphaflaxolone
Alprenolol
Alseroxylon
Ambenoninum
Amidopyrin, its salts, its derivatives and their salts

Prepared for inclusion as at 1/1/1982.
Poisons and Dangerous Substances

Amiloride
Aminobutyric Acid
Aminocaproic Acid
Aminometrazine
Aminophenazone
Anisindione
Anticancer Substances including Carbimazole, Methimazole and Thiouracil and derivatives except
Antileukemic Substances including 1:3 propane diol derivatives. Para-aminosalicylic Acid and its salts,
Antitubercular Substances including Isoniazid and its derivatives, Para-aminosalicylic Acid and its salts,
Antithyroid Substances including Carbimazole, Methimazole and Thiouracil and derivatives except
Antitubercular Substances including Isoniazid and its derivatives, Para-aminosalicylic Acid and its salts,
Antihistamines, except when included in Schedule 2
Apomorphine
Aromatic Substances including (i) Phenytoin derivatives including Chlorpromazine, Promazine and Mepazine; and
Aromatic Substances including (i) Phenothiazine derivatives including Chlorpromazine, Promazine and Mepazine; and
Prepared for inclusion as at 1/1/1982.
Poisons and Dangerous Substances

Ch. No. 231

(vii) Butyrophenone derivatives including Droperidol, Haloperidol, Methylperidol and Triperidol; and

(viii) Benzodiazepine derivatives including Chlorazepate, Diazepam, Flurazepam, Lorazepam, Medazepam, Nitrazepam, Oxazepam, and Chlorodiazepoxide derivatives; and

(ix) Diphenylbutyl piproxide derivatives

Atropine and substances containing more than 0.25% of the organic base except when included in Schedule 5.

Aurothioglucose

Azamethionine

Azapetine

Baclofen

Barbituric Acid, its derivatives and their salts in substances containing more than 0.2% of barbituric acid or its derivatives and their salts

Belladonna and substances containing more than 0.25% of the alkaloids of belladonna calculated as hyoscyamine

Benzbromarone

Benztolamine

Benzoctamine

Benzprynium

Benzquinamide

Benzydamine

Benzyldimethyltryptamine

Beta-aminopropylbenzene (amphetamine) and Beta-aminoisopropylbenzene and any compound structurally derived from either of those substances by substitution in the side chain or by ring closure therein (or by both such substitution and such closure), except Ephedrine, N-methylephedrine, N-diethylaminoethyl-ephedrine, Phenylpropanolamine and Prepylamine; any salt of any substance falling within this item

Betahistine

Betameprodine

Betaprodine

Betanidine

Bibenzonium Bromide

Bismuth Glycoylarsanilate

Bismuth Sodium Tartrate

Bismuth Subgallate for internal therapeutic use except in suppositories

Boron Compounds for human therapeutic or cosmetic use, except —

(i) in preparation for external use containing 1% or less of boron; and

(ii) in unit dose preparations for periodontal disease containing 100 milligrams or less of boron

Beryllium

Bromethol

Bromhexine

Bromides, inorganic, for therapeutic use.

Bromine

Bromindione

Bromocryptine

Bromof orm

Prepared for inclusion as at 1/1/1982.

</table>

Prepared for inclusion as at 1/1/1982.
Poisons and Dangerous Substances

Clamoxyquin
Cllefamide
Clioquinol
Clofamamide
Clofenoxine
Clofibrate
Clofibrade
Clenacran
Clomipramine
Clooidine
Clonitazene
Clopamide
Clopidol
Cloponone
Clorozepate
Cloroxolone
Cloglyline
Closrebol
Clophiapine
Clozapine
Coca Leaf

Cocaine (methyl ester of benzoylecgonine), and any solution or dilution in an inert substance whether liquid or solid in any proportion and all preparations and admixtures

Cocaine, synthetic substitutes for—except when included in Schedule 2

Codeine—

(i) in preparations in tablet or capsule form containing more than 10 mg of codeine in each such tablet or capsule; or

(ii) in any other substance containing more than 1% of codeine.

Codeine—Oxide

Colchicine and substances containing more than 0.5%, of colchicine

Conoline and substances containing more than 0.1%, of conoline

Convallaria

Corticoterphine and other pituitary hormones for parenteral use in humans, natural or synthetic and derivatives

Cortisone and steroid suprarenal cortical hormones and adreno-corticotropic hormone, either natural or synthetic, or their derivatives

Cotarnine

Coumarin derivatives and Phenylindanedione derivatives used as anticoagulants in the treatment of humans

Cromoglycic Acid

Croprospanide

Crosethamide

Cryptenamine

Curare, Tubocurarine, d-Tubocurarine-Dimethyl-Ether, and all synthetic quaternary ammonium compounds having curarising and gangliotoxic paralyzing effects including Polymethylene Bistrimethyl Ammonium compounds, Gallamine, Landexium Methyl Sulphate, Succinamethonium, Pentholinium, Mecamylamine, Pempidine and Trimethaphan except Atropine Methonitrate in preparations for external use

Cyclandelate

Prepared for inclusion as at 1/1/1982.
Ch. No. 231  

**Poisons and Dangerous Substances**

Cycloheximide
Cyclopenetamine except when included in Schedule 2
Cytotoxic Substances with blood destroying and/or anti-cancer properties including Busulphan, Mustin and Tretamin

Danazol
Dangerous Drugs as defined in the Dangerous Drugs Act
Dantrolene
Deanol
Debrisoquine
Dehydroemetine
DET (N-N-Diethyltryptamine)
Dexbromphenethidilazine
Dextran Sulphate
Dextroromethorphan and its salts except preparations containing 1% or less
Dextroropropoxyphene and its salts except preparations containing 1% or less
Dextrophan and its salts except preparations containing 1% or less dextrophan
Diamproline
Diazepam
Diazoxide
Dibenazepin
Dibutamide
Dichlorphenazon
Dichlorodiethyl Sulphide
Dichlorisone
Dichloroethane
Dichlorphenamid
dicyclomine except in preparations containing 0.1% or less of dicyclomine
Diethylcarbamazine Citrate and other salts of diethylcarbamazine
Difenoxin
Digitalis, its glycosides and the derivatives of digitalis and its glycosides
Dihydrocodeine except in preparations containing 1% or less of dihydrocodeine
Di-Iodotyrosine
Di-Isopropylamine Dichloroacetate
Di-Isopropylamine Dichloroethanoate
Dioxanide
Dimepropion
Dimercaprol
Dimethoxanate
(-)-1-Dimethylamino-1, 2-Diphenylethane
Dimethyl Sulphoxide for therapeutic use
Dimophebumine
Dimetocresols in medicinal preparations
Dinitrophenothols in medicinal preparations
Dinitrophenols in medicinal preparations
Dinitrobenzols in medicinal preparations
Diodone
Dioxaphethyl Butyrate

Prepared for inclusion as at 1/1/1982.

**Poisons and Dangerous Substances**

Fluspirilene  
Furosemide  
Fungacid  
Furazolidine  
Fusafungine  
Galantamine  
Glucagon  
Glutethimide  
Glycopyrrolate  
Glymidine  
Gold Compounds for therapeutic use  
Gonadotrophin  
Guaiphenesin except when included in Schedule 2  
Guanacine  
Guancydine  
Guanyldihydriodole  
Guano- 
Guanoxan  

Heparin  
Heptaminol  
Heroin (diacetylmorphine)  
Hexachlorophane except:
   - (i) when included in the Schedule 2 or in Schedule 5; or
   - (ii) in preparations containing 0.1% or less of hexachlorophane as a preservative  
Hexafluoronium  
Hexamethonium  
Homatropine and substances containing more than 0.25% of homatropine  
Hydralazine  
Hydrocyanic Acid, cyanides and substances containing more than the equivalent of 0.15% of hydrocyanic acid  
8-Hydroxyquinoline and its derivatives for human use except when included in Schedule 2  
Hyoscine and its derivatives in substances containing more than 0.25% of hyoscine or its derivatives  
Hyoscyamine Butylbromide  
Hyoscyamus and its derivatives in substances containing more than 0.25% of hyoscyamine or its derivatives  
Hyoscyamus in substances containing more than 0.25% or alkaloids calculated as hyoscyamine  
Ibufenac  
Ibuprofen  
Idoxuridine, except in preparations for cutaneous use  
Indomethacin  
Inositol Nicotinate  
Iodoform, except in preparations for topical application containing 10% or less of iodoform  
Iodothiouracil  
Ion Exchange Resins for therapeutic use  
Ioperamide  
Iothalamic Acid  
Iprindole  

Prepared for inclusion as at 1/1/1982.
Poisons and Dangerous Substances

Iron, preparations for parenteral use
Isoaminile
Isoetharine
Isometheptene
Isoprenalin except when included in Schedule 2
Isoprophenamine

Jaborandi, alkaloids and their salts and substances containing more than 0.025% of the alkaloids

Ketamine
Khellin

Labetalol
Lepromin
Levamisole for human therapeutic use
Lidofazine
Lithium Salts in preparation for human therapeutic use
Lobelia and in substances containing more than 0.5% of alkaloids, except for smoking and burning
Lofepramine
Loxapine
Lysergic Acid Diethylamide, its derivatives and lysergic acid

Lysuride
Mazindole
Mebeverine
Meclofenoxate
Mecloqualone
Mefenamic Acid
Mefenorex
Mefroside
Meglimine iothalamate
Meltdazine
Melanin Stimulators including Ammonidin, Methoxsalen, Xanthotoxin
Melitracen
Mephenesin and its derivatives
Mephenoaxalone
Mephenetermine
Meraluride
Mercapramine
Mercaptomerine
Mercuramidene
Mercuroxide in substances for internal use
Mercury, salts and compounds—for parenteral use
Meso-inositol Hexamicotinate
Metaraminol Bitartrate
Metraxalone
Metazocine
Metformin
Methaphenilene

Prepared for inclusion as at 1/1/1982.
Methaqualone
Methazolamide
Methisazone
Methocarbamol
Methohexital
Methoserpidine
Methoxamine except for topical use
Methoxyphenamine
Methoxypropazine
Methylchromone
Methylchinochep
Methyldopa
Methylhydrazine
Methylisocoumarine
Methylhexanemine
Methylthiouracil
Methypylone
Metclopramide
Metoloxone
Metronidazole
Metropolol
Metrazine
Mexiletine
Mianserin
Miconazole
Molindone
Mono-amine Oxidase Inhibitors and all substances for which mono-amine oxidase inhibition is claimed
Monobenzone
Monophenybutazone
Morphine, except in substances containing 0.2% or less calculated as anhydrous morphine
Morphine Antagonists
Morphine Derivatives not specifically mentioned elsewhere
Morphine Substitutes not specifically included in this Schedule
Muscarin
Myrophine
Nalidixic Acid
Nalidixic Acid
Naloxone
Naproxen
Natamycin
Nefopam
Nedarsphenamine
Nicocodeine, in substances containing more than 1%
Nicotinyl Alcohol for internal use

Prepared for inclusion as at 1/1/1982.
Nicoumalone
Nifenazone
Nimorazole
Nindarole
Nitrofurans and its derivatives for human therapeutic use
Nitroprussides for therapeutic use
Nomifensine
Nor-adrenaline, its salts, its n-alkyl derivatives, their salts, in concentrations of more than 1% of the base
Nyledrin
Nystatin
Octamylamine
Octaverin
Opipramol
Opium
Orciprenaline
Orphenadrine
Orthopterin
Ouabaine
Oxanamide
Oxethazine except:
   (i) in tablets containing 5 mg or less of oxethazine; or
   (ii) in other preparations for ingestion containing 0.2% or less of oxethazine
Oxophenarsin
Oxpentifylline
Oxprenolol
Oxyfedrine
Oxyphenthiourea
Oxyphenisatin
Papaverine
Parahexyl
Paraldehyde
Paraquat except when included in Schedule 3.
Pargyline
Paroxysmepione
Pemoline
Pempidine
Penicillamine
Penicillinase
Pentamethonium
Pentazocine
Pentolinium
Perhexiline
Pethidine and all its derivatives
Phenacetin and all derivatives of Phenetidine except Paracetamol
Phenaglycodol

Prepared for inclusion as at 1/1/1982.
Ch. No. 231  
Poisons and Dangerous Substances

Phenazone for internal use
Phenazopyrodine
Phencyclidine
Phenformin
Phendiol
Phenoxybenzamine
Phenprocoumon
Phentermine
Phentolamine
Phenoxypropazine
Phenybutazone
Phenylisochinolinic Acid
Phenylylhydrazine
Phenyramidol
Pholcodine and in substances containing more than 1% of pholcodine
Pholedrine
Pifenate
Pimoziide
Pipamperone
Piperoxan
Pivhydrazine
Potassium Perchlorate for therapeutic use
Practolol
Prazosin
Prenylamine
Prindolol
Probenecid
Procanamide
Prolintane
Propranolol
Propranolol
Propyhexedrine except when included in Schedule 2
Propylthiouracyl
Proscillinardin
Proscopine
Prostaglandins
Procyklotol
Protoveratrine
Pyridine Aldoxime Methiodide
Quinapyramine
Quinethazone
Quinidine

Prepared for inclusion as at 1/1/1982.
Poisons and Dangerous Substances

Radioactive Substances for therapeutic use
Rauwolfia, its alkaloids, their salts, derivatives of such alkaloids, their salts
Rimiterol
Ritodrine
Salbutamol
Salmefamol
Santonin
Savin, oil of
Sex Hormones, natural or synthetic, their derivatives and substitutes having sex hormonal activity, in all preparations including cosmetics except when included in Schedule 2 or 5
Sparteine
Spironolactone
Stanozomel
Sodium Cromoglycate
Sodium lothalamate
Sodium Metrizoate
Sotalol
Soterenol
Sodium Nitroprusside
Stramonium and substances containing more than 0.25% of alkaloids except for smoking or burning
Strophanthus and its glycosides and their derivatives
Strychnine and substances containing more than 0.2% of strychnine
Sulphanilamide and Sulphonamides, their salts, their derivatives, their salts, except when packed and labelled for veterinary use and except when incorporated in baits for the destruction of vermin
Sulphinpyrazone
Sulphanilamide and alkyl sulphonamides
Sulpiride
Sulitopiride
Sydrosingapine
Tansy, oil of
Techlothiazine
Terbutaline
Tetrabenazine
Tetrahydrocannabinol, including all isomers, salts and derivatives and all salts and derivatives of all isomers
Thalidomide
Thiazide and other substances for therapeutic use structurally derived from Benzothiadiazine including Bendrofluazide Cycloprazide, Hydrochlorothiazide
Thiocolchicoside
Thiothixene
Thorium Dioxide for human therapeutic use
Thyroid and its extract, and its active principal
Tiletamine
Timolol
Tinidazole
Tipepikine
Topenacin

Prepared for inclusion as at 1/1/1982.
Ch. No. 231  

Poisons and Dangerous Substances

Tolamolol
Tolazoline for internal use
Tolperisone
Tranexamic Acid
Trizodone
Triamterene
Trichomycin
Triclofos
Trimipramine and other compounds structurally derived from trimipramine
Trioxsalen
Triparanol
Trometamol
Tuaminoheptane except in solutions for topical use

Uracil Mustard
Urethanes and Ureides having or purported to have soporific, or narcotic properties

Vaccines, sera, toxoids, antitoxins and antigens for human use
Valnoctamide
Verapamil
Veratrum, its alkaloids, their salts
Viloxazine
Vistnadine

Xanthine Oxidase inhibitors including Allopurinol
Xanthinol Nicotinate
Xanthocillin
N-(2, 3-xylyl Anthranilic Acid
Xylazine

Yohimba, its alkaloids, their salts

Any active principle, any natural or synthetic derivative, any salts and any compound of the substances specified in this Schedule and any preparation or admixture of such substances, active principals, derivatives, salts or compounds unless otherwise provided for in this or any other Schedule

Any substances not specifically included in this or any other Schedule which, if taken in a single dose of 60 mg or less, would be dangerous to human life

Prepared for inclusion as at 1/1/1982.
Poisons and Dangerous Substances

SCHEDULE 2.

(Replaced by National Gazette No. G 67 of 13 August, 1980.)

Secs. 8, 17, 18, 19.

DIVISION 2.

PRESCRIPTION POISONS.

Acetarsol
Acetic Acid Glacial as such
Aconite in substances for internal use containing 0.02% or less of the alkaloids of aconite and liniments for external use containing 0.1% or less of the alkaloids of aconite
Adrenaline, natural or synthetic, its salts, in concentrations of more than 0.01% but not exceeding 1% of the base
Amodiaquine
Aminophylline
Amyl Nitrite

Antibiotics for topical application excluding preparations for otic and ophthalmic use in the form of creams, ointments or powders where only the following antibiotics may be used:
(i) Polymyxin B Sulphate up to 5 000 Units per gram; or
(ii) Zinc Bacitracin up to 500 Units per gram; or
(iii) Neomycin Sulphate up to 5 mg per gram,

of the said creams, ointments or powders

Anaesthetics Local—the following only—Benzocaine, Butylcaine, Butylcaine Picrate, Orthocaine, Benamine Lactate, and Lignocaine, when included in:
(i) lozenges, pastilles, tablets and capsules containing 30 mg or less of such substance in each; or
(ii) suppositories or bougies containing 200 mg or less of such substance in each; or
(iii) preparations for external use, other than eye drops, containing 10% or less of such substances

Antihistamine substances (except Chlorcyclizine, Cyclizine, Meclizine, Methapyrilene and their salts and derivatives) in preparations labelled and packed solely for motion sickness in packs of 10 doses or less, in preparations for topical application, or in fluid preparations containing 0.75% or less of antihistamine substance

Antimony and substances containing more than the equivalent of 1% of antimony trioxide, except chlorides in polishes
Arsenic and in all liquid substances
Arsenic and its chemical compounds except those included in Schedules 1 and 5
Aspartic Acid and its salts
Atropine in substances containing 0.25% or less of atropine
Atropine Methonitrate for external use

Barbituric Acid, its derivatives and their salts in substances containing 0.2% or less of barbituric acid, its derivatives or their salts
Belladonna in substances containing 0.25% or less of the alkaloids of belladonna, calculated as Hyoscyamine
Bephenium Hydroxynaphthoate
Bisacodyl
Bromide metallic, including ammonium, in medicinal preparations or admixtures containing more than 300mg of metallic bromide or ammonium bromide in each adult dose
Brucine in substances containing 0.2% or less of brucine except when used in concentrations of 0.02% or less for the denaturation of alcohol
Bufexamac in preparations for topical use containing 5% or less of bufexamac
Butenadiol-Bis-Methane Sulphonic Acid Ester

Prepared for inclusion as at 1/1/1982.
Poisons and Dangerous Substances

Camphorated Oil as such
Camphorated Oil as such
Cantharides (Cantharidin) in substances containing 0.1% or less of cantharidin
Carbenoxolone for topical oral use
Chloral Hydrate in substances containing 5% or less of chloral hydrate
Chlorbutol in preparations containing 250 mg or less of chlorbutol per adult dosage unit
Chlordantoin
Chlorodyne
Chloroform in substances containing 1% or more but not more than 10% of chloroform
Chloroquine
Colchicine in substances containing 0.5% or less of colchicine
Consine and substances containing 0.1% or less of consine
Croton Oil
Cyclopentamine in solutions for topical use

Dexpanthenol
Dextromethorphan in substances containing 1% or less of dextromethorphan
Dextropropoxyphene in substances containing 1% or less of dextropropoxyphene
Dextrophan in preparations containing 1% or less of dextrophan
Dicyclomine in preparations containing 0.1% or less of dicyclomine
Dibydrocodeine in preparations containing 1% or less of dibydrocodeine
Dibydroxynaphaquinone
Dimethisoquin
Dicetyl Sodium Sulphosuccinate
Diphenmetil Methyl Sulphate in preparations for topical use

Ephedra, alkaloids of, both natural and synthetic and their salts including Pseudoephedrine and Methylephedrine in:
(i) preparations containing 1% or less of the alkaloids; and
(ii) preparations containing pseudoephedrine in tablets or capsule form containing 60 mg or less of pseudoephedrine in each such capsule of tablet.

Erythritol Teteranitrate and other nitric esters of polyhidric alcohols
Ether and substances containing more than 10% of ether
Ethyl Morphine in substances containing 1% or less of ethyl morphine

Fibrinolysis
Flavoxate
Fluorides, metallic, including ammonium fluoride, when intended for ingestion, except in dentifrices containing 0.5% or less

Gelsemium
Glycerin Trianitrate
Griseofulvin
Guaiphenesin in liquid preparations containing 2% or less of guaiphenesin and in solid preparations containing 120 mg or less per dose form of guaiphenesin

Prepared for inclusion as at 1/1/1982.
Poisons and Dangerous Substances

Hexachlorophane in preparations for skin cleansing use containing 3% or less of hexachlorophane except in preparations for use on infants or in preparations containing 0.1% or less of hexachlorophane as a preservative.

Homatropine in substances containing 0.25% or less of homatropine.

Hydrocyanic Acid in substances containing 0.15% or less of hydrocyanic acid.

8-Hydroxyquinoline and its derivatives for external human use.

Hyoscine and its derivatives in substances containing 0.25% or less of hyoscyamine or its derivatives.

Hyoscyamus and its derivatives in substances containing 0.25% or less of alkaloids calculated as Hyoscyamine.

Idoxuridine in preparations for cutaneous use only.

Insulin and preparations containing the specific hypoglycaemic principle of the pancreas.

Iodine in substances containing more than 2.5% but not more than 10% of iodine.

Isoprenaline, its salts—
  (i) in nebulizer solutions containing 1% or less of isoprenaline except in metered aerosols; or
  (ii) in metered aerosols delivering 80 micrograms or less of isoprenaline per metered dose.

Isopropamide in preparations containing 2% or less of isopropamide for tropical use.

Isosorbide.

Lead Salts and compounds of lead for medicinal use except in machine spread plasters.

Levamisole.

Lobelia in substances containing 0.5% or less of the alkaloids of lobelia and in preparations for smoking and burning.

Lucanthone Hydrochloride.

Maldison in preparations containing 2% or less of maldison for external use by humans.

Mebendazole.

Mercuric Ammonium Chloride.

Mercuric Chloride and substances containing more than 0.5% of mercuric chloride except in batteries or when included in Schedule 5.

Mercuric Iodide and substances containing more than 0.5% of mercuric iodide except when included in Schedule 5.

Mercuric Nitrate and substances containing more than the equivalent of 3% of mercury (Hg), in such form.

Mercuric Oxide and all oxides of mercury.

Mercuric-potassium-iodide and substances containing more than the equivalent of 2% of mercuric-potassium-iodide, in such form.

Mercury (metallic), as such.

Mercury, organic compounds, and substances containing more than the equivalent of 0.5% of mercury (Hg), in organic combinations, except for therapeutic use or when included in Schedule 5.

Methacresylacetate.

Methenamine.

Methylpolysiloxane.

Morphine (except derivatives and their salts unless specifically included in this Schedule) in substances containing 0.2% or less of morphine calculated as anhydrous morphine.

Prepared for inclusion as at 1/1/1982.
Ch. No. 231  

Poisons and Dangerous Substances

Naphazoline
Nicocodine in substances containing 1% or less nicocodine
Nor-adrenaline, its salts, is N-alkyl derivatives, their salts, in concentrations of over 0.01% but not exceeding 1% of the base
Noscapine
Nux Vomica

Octyl Nitrite
Oxalic Acid and metallic oxalates, except in laundry blue and polishes
Oxethazine when contained in tablets each containing 5 mg or less of oxethazine or in other preparations containing 0.2% or less of oxethazine
Oxolamine
Oxymetazoline

Pentaerythritol Tetranitrate
Phenacetin except for internal use
Phenol or its homologues boiling below 220°C as such
Phenylacetic acid
Phenylephrine
Phenylpropanolamine
Pholcodine in substances containing 1% or less of pholcodine
Phosphides Metallic
Phosphorus Yellow and in substances containing more than 0.5% of free phosphorus
Picric Acid and in substances containing more than 5% picric acid
Piperazine
Potassium Chlorate except in preparations containing 10% or less of potassium chlorate
Propylhexedrine in approved appliances for inhalation in which the substance is suitably absorbed protected by inert solid material
Propylphenazone
Pyrantel for human therapeutic use
Quinine except in preparations containing less than 0.01% of quinine

Salicylamide
Selenium, salts and compounds except when included in Schedule 5.
Sex Hormones when contained in the following ovulation inhibiting preparations for oral use:—
(i) calendar pack of 28 tablets each containing 30 micrograms of D-norgestrel (D-norgestrel); or
(ii) pack of 28 tablets, 21 containing a combination of 0.5 mg DL-norgestrel (del-norgestrel) and 0.05 mg Ethyl Oestradiol, and 7 tablets containing Ferrous Fumarate
Silver Nitrate except in caustic pencils containing not more than 500 mg of toughened silver nitrate
Silver Vitellin
Sodium Nitrate for therapeutic use
Sodium Nitrite for therapeutic use
Stavesacre

Prepared for inclusion as at 1/1/1982.
Poisons and Dangerous Substances

Stramonium in substances containing 0.25% or less of the alkaloids and in preparations for smoking and burning

Strychnine in substances containing 0.2% of strychnine or less

Tetrachlorethylene
Tetrahydrozaline
Theobromine
Theophylline
Thiabendazole
Tolpromazine
Tramazoline
Trichloroacetic Acid
Tuaminoheptane Sulphate in solutions for topical use
Tymazoline

Viprynium

Xylometazoline

Zinc, poisonius salts, except in substances containing 5% or less

Any compound preparation or admixture of the substances specified in this Schedule unless otherwise provided for in this or any other Schedule.

Prepared for inclusion as at 1/1/1982.
Ch. No. 231

Poisons and Dangerous Substances

SCHEDULE 3.

Secs. 5, 10, 17, 18, 19.

POISONS FOR WHICH LICENCES MAY BE GRANTED.

NOTE—This Schedule does not apply to a substance specified in it when contained in—

(a) batteries and accumulators; or
(b) ceramics; or
(c) electrical components and electrical lamps; or
(d) explosives; or
(e) fireworks other than fireworks containing arsenic; or
(f) glazes; or
(g) inorganic pigments; or
(h) matches; or
(i) motor fuels and lubricants; or
(j) paints other than substances prepared for medicinal or cosmetic purposes; or
(k) paper; or
(l) photographic paper; or
(m) propellants; or
(n) timber and wall board; or
(o) vitreous enamels.

Acetonyl Benzy1-4-Hydroxycomarin and in all substances containing more than 0.1%
Acrolein
Aldrin except when included in Schedule 5
Amines Aromatic, including Phenylene Diamine, Toluene Diamine and all other aromatic amines,
when contained in hair Dyes
Ammonia and in preparations containing more than 5% of free ammonia (NH) except in medicinal
substances for internal use, or when the substance is absorbed on an inert material
Aniline except in substances containing 1% or less of aniline
Aprocarb (R) except when included in Schedule 5
Azinphos-ethyl except when included in Schedule 5
Azinphos-methyl except when included in Schedule 5
Azodrin, except when included in Schedule 5
Beryllium
Beta-hydroxyethylhydrazine
Bidrin (R)
Carbon Bisulphide
Carbon Tetrachloride except when used for the treatment of humans or in fire extinguishers or in refill
containers for such extinguishers
Carbophenothenothin except when included in Schedule 5
Chlorcam except when included in Schedule 5
Chlormequat

Prepared for inclusion as at 1/1/1982.
Poisons and Dangerous Substances  

Ch. No. 231

Chromic Acid, excluding its salts and derivatives
Cyanides for commercial purposes and in fumigants

Demeton except when included in Schedule 5
Dieldrin except when included in Schedule 5
Dimethan except when included in Schedule 5
Dimethyl Sulphoxide for non-therapeutice use
Dimetilan except when included in Schedule 5
Diphenacnone in all substances containing more than 0.1% except for therapeutic purposes
Dinofurton except when included in Schedule 5

Endosulfan except when included in Schedule 5
Endrin except when included in Schedule 5

Fluoroacetic Acid, its salts and derivatives and all preparations and admixtures
Formaldehyde in substances containing more than 5% formaldehyde

Heptachlor and all other substitution or addition products of 4:7 Methanoindene except Chlordane except when included in Schedule 5
Hydrochloric Acid, excluding its salts and derivatives, in substances containing more than 10% of hydrochloric acid

Hydrofluoric Acid, Hydrosilicofluoric Acid, their salts and other fluorine compounds and all preparations except for therapeutic use and not specifically included in this or any other Schedule and except substances containing 3% or less of Sodium Fluoride and Sodium Silicofluoride when such are used as preservatives or in dentifrices containing less than 0.5% of Fluoride

Isobenzen except when included in Schedule 5
Isodrin except when included in Schedule 5

Kepone (R) except when included in Schedule 5

Lethane 384 (R) except when included in Schedule 5

Matacil (R) except when included in Schedule 5
Methidathion except when included in Schedule 5
Methiocarb (Mensurol) except when included in Schedule 5
Methomyl except when included in Schedule 5
Methyl Alcohol except in methylated spirits
Methyl Choride
Methylene Chloride
Mevinphos

Nitric Acid, excluding its salts and derivatives, in substances containing more than 10% weight-in-weight of nitric acid

Prepared for inclusion as at 1/1/1982.
Ch. No. 231  

Poisons and Dangerous Substances

Nitrobenzene except in:-
(a) solid or semi-solid polishes; or
(b) soaps containing 1% or less of nitrobenzene; or
(c) any other substance containing 0.1% or less of nitrobenzene

Organophosphorus compounds having anticholinesterase activity except when included in any other Schedule.

Paraquat in substances containing an emetic that—
(a) produces rapid and effective vomiting in man at low concentrations and with no adverse side effects; and
(b) is stable and would not affect the physical or chemical stability of the formulation; and
(c) does not adversely affect the herbicidal action of paraquat; and
(d) does not give rise to any adverse toxicological or environmental effects; and
(e) delays gastric emptying,
and a stenching substance that—
(f) is stable and would not affect the physical or chemical stability of the formulation; and
(g) does not adversely affect the herbicidal action of paraquat; and
(b) does not give rise to any adverse toxicological or environmental effects.

Parathion and Parathion-methyl
Pentachlorphenol except when included in Schedule 5
Phorate except when included in Schedule 5
Phosphamidon except when included in Schedule 5
Phosphoric Acid excluding its salts and derivatives, in substances containing more than 10% of phosphoric acid H₃PO₄.
Potassium Bromate except in substances containing 0.5% or less of potassium bromate
Propachlor
Prothoate except when included in Schedule 5
Pyroilan (R) except when included Schedule 5
Rotenone except when included in Schedule 4 or 5
Sodium Arsenite except when included in Schedule 5
Sodium Bromate except in substances containing 0.5% or less of sodium bromate
Sodium Chlorate except in substances containing 50% or less of sodium chlorate
Strobane (R) except when including in Schedule 5
Sulphuric Acid and substances and preparations containing more than 35% weight-in-weight of sulphuric acid

Tetrachlor ethane
Thallium and its salts, derivatives, compounds and all preparations and admixtures of Thallium

Zectran (R) except when included in Schedule 5.

[The next page is 45.]

Prepared for inclusion as at 1/1/1982.
Poisons and Dangerous Substances

SCHEDULE 4.

UNRESTRICTED DANGEROUS SUBSTANCES.

NOTES:—1. A reference in this Schedule to a substance shall be deemed to include a reference to any compound preparation, or admixture containing any proportion of the substance, and these are therefore subject to all the restrictions of this Schedule, unless specifically exempted, or specifically included, in any other Schedule.

2. This Schedule does not apply to a substance specified in it when contained in—

(a) batteries and accumulators; or
(b) ceramics; or
(c) electrical components and electrical lamps; or
(d) explosives; or
(e) fireworks other than fireworks containing arsenic; or
(f) glazes; or
(g) inorganic pigments; or
(h) matches; or
(i) motor fuels and lubricants; or
(j) paints other than substances prepared for medicinal or cosmetic purposes; or
(k) paper; or
(l) photographic paper; or
(m) propellants; or
(n) timber and wall board; or
(o) vitreous enamels.

Acetylene and calcium carbide
Allethrin
Ammonia, excluding its salts and derivatives other than ammonium hydroxide, in substances containing 5% or less of ammonia, except—

(a) in medicinal preparations for internal use; or

Prepared for inclusion as at 1/1/1982.
(b) in appliances for inhalation in which the substance is absorbed upon an inert solid material; or
(c) in substances containing 0.5% or less of ammonia.

Aramite (R)
Arsenate of lead.
Bromophos
Carbaryl
Chlorbenzilate
Chlordane
Chloropropylate
Chlorothion

Codeine in substances containing less than 1% of codeine.

Coloured chalks, crayons, school pastels, finger colours and show card colours containing any scheduled poison or dangerous substance.

DDT
Diazinon
Dichlorethylene
Dichlorpropene

Dichlorvos when impregnated in plastic resin material containing not more than 20% weight-in-weight of dichlorvos, or in aerosol formulations containing not more than 3% weight-in-weight of dichlorvos.

Dioctyl
Disinfectants of cresol type, not elsewhere included.
Disinfectants of essential oil type.
Ethyl alcohol
Fenitrothion

Formaldehyde in substances containing 5% or less of formaldehyde, except in substances containing 0.5% or less of formaldehyde.

Fombythion

Hydrocarbons, liquid, distilling under 300°C when tested according to method D86-61 of the American Society for Testing Materials, in substances containing more than 25% of such liquid hydrocarbons when packed in containers of 18.184 litres or less.

Hydrochloric acid, excluding its salts and derivatives, in substances containing 10% or less of hydrochloric acid except in substances containing 0.5% or less of hydrochloric acid.

Hydrogen peroxide in substances containing more than 6% weight-in-volume of hydrogen peroxide.

Iodine in liquid substances containing 2.5% or less of free iodine.

Iodophors containing 25% or less of free iodine.

Kerosene
Lindane
Maldison
Metaldehyde
Methoxychlor

Methylated spirits

Mineral turpentine in substances containing more than 25% of mineral turpentine when packed in containers of 18.184 litres or less.

Nitric acid, excluding its salts and derivatives, in substances containing 10% or less weight-in-weight of nitric acid.

1Mentioned editorially. The original measurement was 4 gal.
Poisons and Dangerous Substances

Oil of turpentine in substances containing more than 25% of oil of turpentine when packed in containers of 18.184 litres or less.

Paints, dopes and varnishes containing a poisonous substance or solvent.

Paradichlorobenzene

Permanganates

Petrol in substances containing more than 25% of petrol when packed in containers of 18.184 litres or less.

Phenol, cresol, creosote and other homologues of phenol boiling below 220°C in substances containing 3% or less by weight of phenol, cresol, creosote and other homologues of phenol boiling below 220°C, except in preparations for medicinal use.

Phosphides, metallic

Phosphorus, yellow, in substances containing 0.5% or less of free phosphorus.

Picric acid, in substances containing 5% or less of picric acid.

Potassium hydroxide

Pyrethrins

Rotenone in substances containing not more than 3% weight-in-weight of rotenone.

Ryania

Sodium hydroxide

Sodium nitrite in substances containing more than 1% of sodium nitrite.

Thiourea

Thiram

Toluene

Trichlorphon

Xylene

Zinc, poisonous salts of, in substances containing less than 5%.

Schedule 5.

Secs. 1, 12.

AGRICULTURAL POISONS.

NOTE.—The substances specified in this Schedule shall be packed, labelled and sold in accordance with Section 12.

Division I.

Antibiotic premixes for growth promotion in animals containing any of the following substances as a total concentration of not more than 20 000 parts per million, when labelled with instructions for mixing into animal feeds to produce a total concentration of not more than 100 parts per million of antibiotic:

bacitracin
benzylpenicillin, including procaine penicillin
chlorotetracycline
erthromycin
flavomycin
hygromycin

1 Marked editorially. The original measurement was 3 gal.
Ch. No. 231  Poisons and Dangerous Substances

monensin
nystatin
oleandomycin
oxytetracycline
tylosin.

Anticoagulant substances, including substances structurally derived from coumarin, and phenindione and substances structurally derived from phenindione except where Schedule 1 applies.

Arecoline acetarsol in preparations for the treatment of hydatid infestation in animals.

Arsenic—

(a) in preparations for use as sheep or cattle drenches or as solutions for the treatment of foot rot; and

(b) in the forms of monosodium or disodium methyl arsenate in preparations for use as herbicides or defoliants.

Atropine sulphate when in tablets each containing 0.6 mg of atropine sulphate in packs of six tablets labelled with instructions for use in the treatment of poisoning by organophosphorous insecticides or carbamate insecticides.

Bitalacryl
Bromoxynyl
Butacarb
Chloramphenicol in topical preparations for the treatment of foot rot, and for ocular use in animals.
Chloroallyldiethyl thiocarbamate (CDEC)
2-Chloro-N,N-diallylacetamide (CDAA).
Chloropicrin
Chlortetracycline in preparations for the treatment of fish.
Chromates and dichromates of alkali metals and ammonium.
Chromic acid excluding its salts and derivatives.
Cronolone when impregnated in sponges for intra-vaginal use in sheep.
Di-allate
Dichlorethyl ether
Dichlorpropene
Dinocap
Diquat
Disulfiram except where Schedule 1 applies.
Dithionon
Ethyl bromide
Ethylene dibromide
Ethylene dichloride
Ethylene oxide
Perbom
Hexachlorophane in preparations for the treatment of animals except in preparations containing 0.1% or less of hexachlorophane as a preservative.

Hydrocyanic acid
Hydrogen phosphide
Ioxynill
Mercury, organic compounds, and substances containing more than the equivalent of 0.5% of mercury (Hg), in organic combinations.
Methyl bromide
Nicotine, except in substances containing 1% or less of nicotine and except in tobacco in any form.
Poisons and Dangerous Substances

Ch. No. 231

Norbromide
Orthodichlorbenzene
Oxythioquinox

Penicillin, streptomycin, tetracycline, and substances structurally derived from penicillin, streptomycin or tetracycline when suitably coloured with brilliant blue FCF or other approved colour as a marker in preparations in applicator devices for intramammary infusion in the treatment of animals, and when the label indicates that they are for animal treatment only and contain a warning that when used in mastitis therapy the milk from treated animals must be discarded for 72 hours after cessation of therapy.

Prometryne
Selenium in substances containing 2.5% or less of selenium except for human therapeutic use.
Sulphanilamide and substances structurally derived from sulphanilamide in preparations for the treatment of animals.
Sulphaquinoxaline in baits for the destruction of vermin.
Sulphur dioxide, except when used as a food preservative.
Testosterone propionate and testosterone dipropionate in preparations for the treatment of animals.
Tetracycline and substances structurally derived from tetracycline in topical preparations for ocular use in animals or when packed in containers each containing not more than 1.2 g of tetracycline labelled with instructions for the treatment of aquarium fish or cage birds.

Tetrahydrofuran
Ziram

Division II.

NOTE:—The substances specified below, provided they are—
(a) labelled "for animal treatment or veterinary use only"; or
(b) in liquid formulations in packs containing not less than 4.546 litres¹; or
(c) in wettable powder formulations in packs of not less than 2.268 kg²; or
(d) in dust formulations containing not more than 10% weight-in-weight of the substance in packs of not less than 25.402 kg³; or
(e) in dry granulated materials in packs of not less than 25.402 kg³:

Aldrin
Aprocarb (R)
Azodrin
Chlorcam
Dieldrin
Dimethan
Dinitro cresols, dinirophens and their homologues.
Endosulfan
Heptachlor and all other substitution or addition products of 4:7 methanoindene, except chlordane.
Kepone (R)
Lethane 384 (R)
Methiocarb (commercially known as Mensurol)
Organophosphorus compounds having anti-cholinesterase activity, except when included in Schedule 4.
Pentachlorophenol

¹Metricated editorially. The original measurement was 1 gal.
²Metricated editorially. The original weight was 5 lbs.
³Metricated editorially. The original weight was 56 lbs.

Prepared for inclusion as at 1/1/1982.
Poisons and Dangerous Substances

Pyrolan (R)
Rotenone, except when included in Schedule 4.
Sodium arsenite

Division III.

NOTE:—The substances specified below, provided they are in dry, granulated materials containing not more than 10% weight-in-weight of the substance and packed in containers of not less than 25 kg:—

Azinphos-ethyl
Azinphos-methyl
Carbophenothion
Demeton
Dimetilan
Disuixon
Endrin
Isobenzan
Isodrin
Matracil (R)
Methidathion
Methomyl
Phorate
Phosphamidon
Prothoate
Strobane (R)
Zectran (R)

SCHEDULE 6.

Sec. 24.

LIQUID DANGEROUS SUBSTANCES.

Benzene
Benzine (petrol)
Kerosene
Methylated spirits (S.V.M.)
Mineral turps
Thinners
Turpentine
White spirit
Poisons and Dangerous Substances

INDEPENDENT STATE OF PAPUA NEW GUINEA.

CHAPTER NO. 231.

Poisons and Dangerous Substances Regulation.

ARRANGEMENT OF SECTIONS.

PART I.—POISONS AND DANGEROUS SUBSTANCES GENERALLY.

1. Form of poisons licence.
2. Fees for poisons licence.
3. Form of Poisons Register.
4. Storage of poisons or dangerous substances.
5. Packaging of certain poisons.
6. Signature, etc. of prescriptions containing poisons, etc.
7. Prohibition, etc., of certain poisons.

PART II.—METHYLATED SPIRIT. (Repealed)

SCHEDULE.—

FORM 1.—Poisons Licence.
FORM 2.—Poisons Register.

Prepared for inclusion as at 1/1/1980.
INDEPENDENT STATE OF PAPUA NEW GUINEA.

CHAPTER No. 231.

Poisons and Dangerous Substances Regulation.

MADE under the Poisons and Dangerous Substances Act.

PART I.—POISONS AND DANGEROUS SUBSTANCES GENERALLY.

1. Form of poisons licence.
   A poisons licence shall be in Form 1.

2. Fees for poisons licence.
   The fee for—
   (a) the issue of a poisons licence is K8.00; and
   (b) a renewal of a licence is K5.00.

3. Form of Poisons Register.
   A Poisons Register shall be in Form 2.

4. Storage of poisons or dangerous substances.
   (1) A person who sells a poison or dangerous substance must store it in a locked cupboard or room.

   (2) Where a poison is required by the Act to be sold by a medical practitioner, a pharmacist or a licensee, the medical practitioner, pharmacist or holder of a poisons licence who sells the poison must retain the custody of the key of the locked cupboard or room required by subsection (1).

   (3) Where a dangerous substance may be sold by any person, the person who sells the dangerous substance or the manager in charge of the shop in which the dangerous substance is sold must retain the custody of the key of the locked cupboard or room referred to in Subsection (1).

   Penalty: A fine not exceeding K40.00.

5. Packaging of certain poisons.
   (1) This section applies to the following poisons and dangerous substances:—
       (a) arsenate of lead; and
       (b) arsenic; and
       (c) arsenical fly exterminator; and
       (d) arsenical weed-killer; and
       (e) carbolic acid; and
       (f) cyanide of potassium; and
       (g) lysol; and
       (h) mercuric chloride; and
       (i) strychnine.
(2) A person must not sell a poison or dangerous substance specified in Subsection (1) unless the package and container has printed on it conspicuously the name of an effective remedy or antidote (if there is one) to counteract the effect of the poison or dangerous substance.

Penalty: A fine not exceeding K40.00.

(3) This section does not apply to a poison or dangerous substance specified in Subsection (1) where it is supplied to—

(a) a medical practitioner for his own or his patients' use; or

(b) a person by a pharmacist on the prescription or order of a medical practitioner.

6. Signature, etc., of prescriptions containing poisons, etc.

(1) For the purposes of the Act, a prescription containing a poison or dangerous substance that is issued by a medical practitioner must—

(a) be written in ink, and in terms and symbols such as are used in ordinary professional practice; and

(b) be signed by the medical practitioner in his own handwriting.

(2) A person who writes a prescription containing a poison or dangerous substance in secret code or cypher is guilty of an offence.

Penalty: A fine not exceeding K40.00.

7. Prohibition, etc., of certain poisons.

The supply, manufacture and distribution of preparations comprising the poisons oxphenisatin acetate, diacetyldiphenolisatin and triacetyldiphenolisatin is prohibited.

PART II.—METHYLATED SPIRIT. (Repealed by No. 65 of 1975.)
PAPUA NEW GUINEA.
Poisons and Dangerous Substances Act.

Act, Sec. 5.
Reg., Sec. 1.

Form 1.

POISONS LICENCE.

is licensed to sell poisons specified in Schedule 3 to the Poisons and Dangerous Substances Act at his place of business situated at

This licence continues in force until 19 unless sooner revoked, and is issued subject to the Poisons and Dangerous Substances Act and any regulation made under that Act.

Dated 19.

Minister for

PAPUA NEW GUINEA.
Poisons and Dangerous Substances Act.

Act, Sec. 16.
Reg., Sec. 3.
