To accompany an application for grant of extension of an EL under Section 21 of the Act or an application for a variation under Section 27 of the Act.

**Note 1** Reference should be made to Sections 23(b), 25 and 26 of the Act.

**Note 2** Both year 1 and year 2 proposed programmes must be completed and if necessary these may be amended by seeking a variation under Section 27 of the Act. It is sufficient to indicate proposed activities with a cross in most cases. However, quantitative estimates are required when mechanized earth moving or mining equipment is to be used and when bulk sampling is intended. For the purposes of Section 23(b) of the Act classes will signify that reasonable numbers of geochmical samples may be taken.
